2024 CATALOG & PRICE LIST

Letter from our President

I began this company in **1976** with a vision of bringing new life to reclaimed antique lumber.

The care and passion I invested into building our home out of these beautiful materials is the same care and passion my family brings to every new project we are fortunate to be a part of.

We offer excellent variety, the best materials, and knowledgeable staff to guide you along the way. Our customers are our best resource for defining **what makes our company truly special:**

- **Our No-Nonsense Language** Doing our part to make your project a success is important to us and to show it we use clear and concise descriptions with our guarantee.
- **Eco-Friendly Commitment** Our wood products are 100% recycled and naturally green and will provide a lifetime of enjoyment to your home or project.
- **Our Guarantee** The cornerstone of our continued commitment to providing the best antique flooring and wood for every order. We fully guarantee all our products will be equal to or better than our specification.

Today, I am proud to say we still hold true to our original values of **quality, family, and craftsmanship**. Simply put, our mission is to provide the best antique and other fine woods as we always have; for your home, business, or historic restoration.

Sincerely,

Richard Woods

President, Albany Woodworks

The Ideal Flooring For Your Space

Our goal is to create a seamless flooring experience, and there are many options that can seem daunting at first. Regardless of the flooring you choose, you have the satisfaction in knowing you will receive the best quality flooring for the price. One of the first steps is to decide whether to go with solid wood or engineered flooring. **Most collections come with matching stair parts and custom widths can be requested!!**

Why Choose Solid?

Since our start in 1976 we are well-known for providing some of the best reclaimed and other fine antique wood flooring in the industry. Carefully removed from 150 year-old buildings and restored to bring classic elegance to your home. Choose solid flooring for:

- Longer length options up to 16 foot
- Durable long lasting antique lumber with beautiful grain patterns
- Matching original flooring for historic homes and landmark properties
- Ample wear surface allows you to change the look through time and trends

Why Choose Engineered?

Our engineered flooring is manufactured using top quality, sustainably sourced Baltic birch plywood backing with Low VOC adhesive. You can rest assured that our engineered wood flooring can stand the test of time and is a safe and green choice for your family. Minimum order 1,000 sqft. Choose engineered flooring for:

- Offers naildown or gluedown installations
- Home remodels and building projects where easy and precise installation is ideal
- Long lasting stability and durability
- Top-quality 4 mil wear surface allows for several refinishes

Prestige Collection

Our Prestige collection is the best of the best antique heart pine flooring, all heart, tight grain, clear (free of knots), 85% vertical grain or better, and rare nail holes. Carefully reclaimed from 100-150 year old buildings, our antique heart pine products are 100% recycled. By giving new life to this fine aged wood, we can provide a quality product that is unmatched by today's standards for beauty and durability.
